Subject: Rupert at Dimock next week???

Den,
Rupert is helping with the additional home visits from week one. We did 4 this week, but still have three to schedule, hopefully for Monday/Tuesday next week.
There are also some other work plans that we can discuss on the phone where Rupert would need to be on site also,.
So, he might need to be excused from some or all of the program/safety meeting, depending upon what happens. Again, Rupert will call you to explain in further details.
Rupert and I plan to work on the Isotech draft briefing over the weekend and will send it to you. We can discuss how soon you would like us to come to Philly and brief you and Ron.
